Lodge: The best in hospitality!

Lodge is a Jacuzzi® hot tub dedicated to holiday parks, glamping sites, hotels and holiday villages. It is designed specifically for the commercial environment to offer wellness treatments for all guests, whether in a communal area or a private suite. Its simple design – typical of Jacuzzi® - can fit any outdoor environments: terraces, gardens, relax areas, beaches. Lodge makes the most of all hospitality facilities thanks to the Jacuzzi® premium design, quality and excellence.

Jacuzzi®: more than just a name.
With Lodge, the renowned hydro-massage technology by Jacuzzi® features a complete wellness path to enjoy in several steps to achieve a highly effective wellness hydrotherapy massage. Moreover, Lodge offers the utmost comfort thanks to several types of seats and easy access to built-in entry steps.

Easy to install and to use.
Since it is dedicated to the Hospitality industry, Lodge features the 5-star Jacuzzi® performance. Installation is easy and quick. It is a user-friendly and intuitive system. Thanks to the **Quick Drain**, option, the spa can be drained in 20 minutes.

Easy maintenance.
This hot tub can be easily managed and maintained. Water treatment is easy, quick, and safe thanks to the **ClearRay™** optional system and to the "**Spa Pack Performance**" (professional filtration system for intensive use).

Your Holidays never end!
Thanks to the water heating system, (2kW heater, or 2+ plus 6 kW additional heater or, heat exchanger) and to the **Winter Pro Kit**, the insulation system to hinder thermal dispersion for outdoor use, Lodge can offer outdoor enjoyment for your guests all year round. The holiday season never needs to end, and therefore every hotel with a Jacuzzi® becomes more appealing and prestigious, even in Winter.

A great variety of optional features and total customisation. Lodge boasts tailor-made requirements and demands of any hospitality facility.

Lodge (dim. 200x185x90 cm) is available in the free-standing or build in version (cover included).
